Create Freedom

Peer Sales Network (PSN) offers a life-changing opportunity for any dental professional seeking to earn additional income. Our **PSN** model is based on "word of mouth" referral marketing & sales, utilizing trusted **PEER-2-PEER** relationships. There are three (3) FREE membership types:

1. **PSN Sales Reps:** As an independent consultant, your role is to share your professional opinion about the PSN products and services you like and trust the most. Personal recommendations from one clinician to another makes a difference in the brands selected and purchased. After all, talking with friends is the best way to do business!
2. **PSN Business Partners:** We partner with innovative dental manufacturers and service providers to represent and market their products and services directly to dental professionals just like you! Each company provides tools, training & support for our **PSN** Sales Team.
3. **PSN Professional Members:** Dental offices join as professional members who purchase products you recommend (B2B customers) and you receive a commission for each sale. With your trusted referrals, members gain a higher level of confidence in selections for their practice. Offices receive **PSN** discount pricing to increase their profits.
